ecogenics®

Your Hygiene and Safety Partner

Eco Friendly Cleaning and Disinfecting Chemicals within the Neutral pH Range for Greener, Cleaner & Safer world

Manufacturing

From Production capabilities to quality assurance

Production Infrastructure and capacity

We have state of the-art facilities, recently **built under the most modern design and sustainability standards for liquid blending manufacture.**

Quality Control & Assurance

As an ISO 9001 Certified company all of our processes are documented and continuously verified for improvement.

- Raw material and inventory control.
- Shop Floor Control.
- Water Quality.
- Blending Process Control.
- Filling process control.
- Information Technology.
- Occupational safety.

Quality Assurance Lab

Our quality assurance laboratory operates which specifies the general requirements for the competence to carry out test and/or calibrations, including sampling.

Sustainable Operations

Keeping operations lean, green and simple.

We understand the importance of having sustainable operations in today's world. We have implemented the ISO 14001:200 standards certificate within our entire operation.

That is why our facility is designed to implement green standards that will ensure your products are manufactured in environment friendly ways. These are a few of our green management initiatives:

- Responsible construction,
- Energy saving
- Water saving
- Lean principles.

ECO2

Hard Surface Enzyme-based Chemical

हार्ड सरफेस एंजाइम आधारित रसायन

Features-

- Heavy duty formulation for deep cleaning.
- Removes stains of dirt and grime for all surfaces.

Dilution : 15ml-35ml / Litre Water

ECO9

Lab Glass ware Cleaner (For Ultrasonic Machine)

लैब ग्लास क्लीनर अल्ट्रासोनिक मशीन के लिए

Features -

- De-scaling Action acts fast on stains and deposits caused hard water
- Easy to use
- Multi Action helps to clean all types of stains
- **Not recommended for marble and wooden surfaces.**
- **Corrosive**

Dilution : 10-15 ml of chemical per litre of water in the Ultrasonic Machine.

ECO3

Glass Cleaning Chemical Concentrate

ग्लास क्लीनिंग केमिकल कंसन्ट्रेट

Streak Free Shine

निशान मुक्त चमक!

Features -

- Anti-dirt formula for effective glass cleaning
- Grease cutting micro system help cut through oils and grimes.
- Effective cleaning of home appliances.
- Non Ammoniated Glass Cleaner.
- Multi surface action, Child and pet-friendly
- Mild fragrance, No trace marks

Dilution : 30ml-40ml / Litre Water

ECO10

SS Polish

एसएस पोलिश

Features :-

- Gives a sparkling shine to the metal surfaces.
- Especially designed for steel table tops, fixtures, fittings.
- A gentle and effective polish for Stainless steel, fixture.
- Economical to use.

Dilution : Ready-to-use product

ECO6

Bowl Cleaning Chemical

बाउल क्लीनिंग केमिकल

Double Power Cleaning

दो गुना सफाई शक्ति

Features-

- Fast action cleaner for your toilet bowls.
- Quick anti-impurities formula helps remove stains and residues of debris.
- Toilet Cleaner it cleans, and leaves freshness after application.
- **Corrosive**

Dilution : Ready-to-use product

ECO22

Laboline/lab Glass ware Cleaning Chemical

लैबोलिन / लैब ग्लास वेयर सफाई का रसायन

Features -

- De-scaling Action acts fast on stains and deposits on glass and ceramic surfaces.
- Easy to use
- Multi Action helps to clean all types of stains
- Safe and deep cleaning for glass and ceramic surfaces.
- Not recommended for marble and wooden surfaces.

Dilution : 20-40 ml per liter of water

ECO7

Antimicrobial Laboratory Cleaning Chemical

रोगाणुरोधी प्रयोगशाला सफाई का रसायन

A cleaner that makes you feel safer
इकोपलोर क्लीनर जो सफाई के साथ आपको सुरक्षित भी रखे।

Features-

- Multi surface floor cleaner.
- pH balanced quality keeps your homes impurity and dust free.
- Children and pet safe.
- Surface enhancer helps maintain the floor finish/polish.
- Eco-friendly.
- Pleasantly perfumed.

Dilution : Normally soiled surfaces: 4 ml. in 1 litre of water.
Highly soiled surfaces : 10 ml. in 1 litre of water.

ECO31

Scientific Instruments Cleaner

साइंटिफिक इंस्ट्रूमेंट क्लीनर

Features :-

- Alcohol based cleaner.
- Spray & Clean. It dries up quickly.
- For non human applications

Dilution : 20-40 ml per liter of water
